Núm. 4070
Fecha: 7 de diciembre de 1989 9:40 A-4

Aprobado: Sila M. Calderón
Secretario de Estado

Por: _____
Secretario Auxiliar de Estado

ESTADO LIBRE ASOCIADO DE PUERTO RICO

DEPARTAMENTO DE SERVICIOS SOCIALES

GUIAS PARA DETERMINAR Y MODIFICAR PENSIONES ALIMENTICIAS EN PUERTO RICO

ARTICULO I. PROPOSITO

El propósito de estas guías es la Determinación y Modificiación de Pensiones Alimenticias a Menores mediante la utilización mandatoria de guías uniformes.

ARTICULO II. BASE LEGAL

Se adoptan estas Guías de acuerdo con la facultad que confiere al Secretario de Servicios Sociales la Ley Número 171 del 20 de junio de 1968, Ley Orgánica del Departamento de Servicios Sociales y la Ley Núm. 5 del 30 de diciembre de 1986, según enmendada, conocida como la "Ley Especial de Sustento de Menores".

ARTICULO III. SEPARABILIDAD

La declaración por un Tribunal competente de que una disposición de este reglamento es inválida, nula o inconstitucional no afectará las demás disposiciones del mismo, las que preservaran toda su validez y efecto.

ARTICULO IV. DEROGACION

Se deroga el Modelo de Guías para Determinar Pensiones Alimenticias del 31 de diciembre de 1987.

ARTICULO V. DETERMINACION Y MODIFICACION DE PENSIONES ALIMENCIAS

A. TABLAS GUIAS PARA LA FIJACION DE PENSIONES ALIMENTICIAS

B. INSTRUCCIONES PARA COMPUTAR PENSIONES

SECCION 1. Ingreso Bruto a Considerar:

La definición del ingreso bruto está contenida con la Ley núm. 5 del 30 de diciembre de 1986, según enmendada, en la Sección II, Artículo 2.9 y dice como sigue:

> "9. Ingresos--significa cualquier ganancia, beneficio, rendimiento o fruto derivado de sueldos, jornales, o compensación por servicios personales, incluyendo la retribución recibida por servicios prestados como funcionario o empleado del Estado Libre Asociado de Puerto Rico, del Gobierno Federal de los Estados Unidos, o del cualquier subdivisión política de los mismos, o de cualquier agencia o instrumentalidad de cualesquiera de las mencionadas entidades en cualquiera que sea la forma en que se pagaren; o de profesiones, oficios, industrias, negocios, comercio o ventas; o de operaciones en propiedad, bien sea mueble o inmueble, que surjen de la posesión o uso del interés en tal propiedad; también los derivados de intereses, rentas, dividendos, beneficios de sociedad, valores o la operación de cualquier negocio explotado con fines de lucro o utilidad y ganancias, beneficios, rendimientos, fondos, emolumentos o compensaciones derivadas de cualquier procedencia, incluyendo compensaciones como contratistas independiente, compensaciones por desempleo, compensaciones por incapacidad, beneficios de retiro y pensiones o cualquier otro pago que reciba un alimentante de cualquier persona natural o jurídica."

También en la L.E.S.M. en la Sec. VI, Art. 19 en el segundo párrafo se indica:

> "Para la determinación de los recursos económicos del obligado a pagar una pensión alimenticia, se tomará en consideración en adición al ingreso neto ordinario, el capita o patrimonio total del alimentante." (subrayado nuestro)

Para efectos de la fijación de pensiones alimenticias, se considerará ingreso bruto también, el ingreso imputado por el Juez en los casos en que ello lo amerite.

Se entiende por ingreso imputado aquel ingreso que el tribunal atribuye al padre alimentante cuando exista evidencia de que el alimentante está desempleado por voluntad propia pero anteriormente había desempeñado alguna

labor productiva o cuando haya evidencia de que el alimentante por voluntad propia abandonó su empleo o redujo su capacidad productiva para eludir las responsabilidades alimenticias para con sus hijos. Las medidas a tomar y el ingreso que fije estarán a discreción del juez tomando en consideración la empleabilidad del individuo y su historial de trabajo. En casos en que no exista información válida al respecto, el juez podrá aplicar el salario mínimo prevaleciente en el área. También se podrá imputar ingreso cuando el padre alimentante abandona su trabajo para irse a estudiar con el propósito de no cumplir su deber de alimentante. Su historial ocupacional podrá utilizarse como base para fijar el ingreso neto a imputarse.

No se imputará ingreso, entre otras cosas:

1. En aquellos casos en donde el costo del cuidado de niños, cuando ello sea requisito para trabajar, y otros gastos a incurrirse, hagan improductivo ganar un salario.
2. Cuando la persona por su condición de salud o incapacidad no pueda trabajar.
3. Cuando permanecer al cuidado de los niños sea imprescindible para el bienestar de éstos.

En cualquier circunstancia el ingreso imputado quedará a la discreción del juez.

EL INGRESO BRUTO SEGUN CALCULADO DEBE ANOTARSE EN LA SECCION 1, TANTO PARA EL PADRE CUSTODIO COMO PARA EL PADRE NO-CUSTODIO.

Para los que trabajan por su cuenta ya sea en una profesión, oficio o de "chiripas", el ingreso bruto personal se determinará por un procedimiento similar al que se utiliza en la planilla de contribución sobre ingresos en donde se toman en consideración los gastos necesarios en que el alimentante haya incurrido para producir su ingreso. Anote en la SECCION 1.

5. Ingreso Neto

La Ley #5 del 30 de diciembre de 1986, según enmendada, también define lo que se considerará ingreso neto en la Sección II, Artículo 2.10:

> "10. Ingreso Neto significa aquellos ingresos disponibles al alimentante, luego de las deducciones por concepto de contribuciones sobre ingresos, seguro social y otros requisitos mandatoriamente por ley. Se tomarán en consideración, además, a los efectos de la determinación de ingreso neto, las deducciones por concepto de planes de retiro, asociaciones, y uniones y federaciones voluntarias, así como los descuentos o pagos por concepto de primas de pólizas de seguros de vida contra accidentes o de servicios de salud, cuando el alimentista sea beneficiario de éstos."

No se considerará como ingreso, los provenientes de los programas de asistencia económica, los ingresos provenientes de la Categoría de Ayuda a Familias con Niños Necesitados (Categoría C), al igual que los pagos recibidos bajo el Programa de Asistencia Nutricional (PAN) por disposición expresa de la Secretaría de Servicios Sociales.

SECCION 2. Deducciones Mandatorias

Se entiende por deducciones mandatorias aquellas deducciones del salario bruto de una persona que por ley se requieren en el desempeño de su trabajo. (Sume las deducciones mandatorias de cada padre y anótelas en la Sección 2. De no existir deducciones mandatorias, anote 0 en la Sección 2.)

SECCION 3. Ingreso Neto

Réstele al Ingreso bruto las deducciones mandatorias.

SECCION 4. Cuotas por Seguro Médico

Se descontarán del ingreso neto de cualquiera de los padres del alimentista, las cuotas que se pagan por seguro médico cuando los hijos alimentistas sean beneficiarios del seguro. (Anote la cantidad en la columna correspondiente al padre que paga la cuota del seguro médico.)

SECCION 5. Ingreso Neto Disponibles para el Cómputo de la Pensión Alimenticia Básica

Se considera ingreso neto disponible, aquella parte del ingreso bruto, que luego de descontársele las deducciones mandatorias y otras deducciones aceptadas, queda disponible para hacer frente al pago de las pensiones alimenticias. (A la Sección 3 réstele la Sección 4. El resultado anótelo en el encasillado correspondiente a cada padre.)

SECCION 6. Proporción del Ingreso Neto Total Disponible que le corresponde a cada padre.

El cómputo de la responsabilidad de cada padre en gastos considerados como extraordinarios o especiales y que no es posible incluir en la pensión básica, dependerá de la capacidad de pago de cada padre y su participación proporcional en el ingreso neto total de ambos. (Para calcular dicha participación, sume el ingreso neto total de ambos padres y divida el ingreso neto del padre A entre el ingreso neto total de ambos. Eso representa su contribución al ingreso neto total. Haga un procedimiento similar con el padre B y el resultado representará la contribución del padre B en el ingreso neto total.) Anote en la Sección 6 en la columna del padre correspondiente.

Ejemplo: El Padre A tienen un ingreso neto mensual disponible de $ 650 luego de su ingreso bruto las deducciones mandatorias y otras deducciones permisibles. El

padre A no se ha casado de nuevo. El Padre B tiene un ingreso neto disponible de $ 455. El ingreso neto mensual disponible de ambos es de $ 650 + $ 455 = $ 1,105. La parte proporcional que le corresponde al Padre A= $ 650 ÷ $1,105 = 58.8%.

La parte proporcional que le corresponde al Padre B = $455 ÷ $1,105 = 41.2%. (Anote en los espacios correspondientes en la Sección 6.)

SECCION 7. Obligación Básica de cada Padre

La obligación básica alimenticia de cada padre se calcula utilizando tablas para la fijación de pensiones alimenticias. La guía consiste de tres renglones básicos: a) número de niños en la familia para los cuales se está calculando la pensión, b) ingreso neto mensual disponible de cada padre, y c) edad de los niños alimentistas.

Utilice las tablas y cumplimente el Formulario I-B que se acompaña. Anote en la Sección 7, el resultado obtenido en la Sección 2a del Formulario I-B.

SECCION 8. Gastos por Cuido de Niños

El gasto por cuido de niños, cuando éste se incurra como requisito para desempeñar un empleo, será prorrateado entre ambos padres en proporción a su participación en el ingreso neto total disponible. El gasto deberá responder al criterio de razonabilidad, guardando proporción con la experiencia de la localidad en donde se incurre el gasto. Anote en la Sección 8 el gasto mensual por concepto de este renglón.

SECCION 9. Participación de cada padre en el gasto de cuido de niños

Distribuya la cantidad anotada en la Sección 8 entre ambos padres aplicando el % calculado en la Sección 6 por el gasto anotado en la Sección 8. El resultado se anota en la columna correspondiente a la Sección 9.

Ejemplo: En el ejemplo anterior, para que la madre pudiera trabajar y recibir una remuneración monetaria, se requería que obtuviera cuido para sus 3 niños, edades 4,2, y 1 año. El costo de este servicio era de $50 por niño, con un arreglo de $125 por tres niños.

Ese total de $ 125 se multiplica por 58.8% = $73.50 y se multiplica por 41.2% = $51.50 =

$73.50 le corresponden al Padre A
$51.50 le corresponden al Padre B.

Anote los resultados en la columna correspondiente de la Sección 9.

SECCION 10. Gastos de mensualidad de colegio

El gasto mensual en que se incurra para el pago de la mensualidad del colegio de los hijos alimentistas se multiplica x 10 meses que corresponden a los meses del calendario escolar y se dividen entre 12 meses para prorratearlos a un año. Ese resultado se anota en la Sección 10.

SECCION 11. Contribución de cada padre a los gastos de mensualidad de colegio para los alimentistas

El gasto de mensualidad obtenido en la Sección 10, se multiplica por la parte proporcional que le corresponde a cada padre en el ingreso neto mensual disponible, anotándose el resultado en la columna correspondiente a la Sección 11.

Ejemplo:

En el ejemplo anterior únicamente el niño de 4 años asistía a un pre-kinder en donde se pagaba la cantidad de $65 mensuales por 10 meses.

Se multiplica $65 x 10 = $650. Esa cantidad se divide entre 12 meses, obteniéndose que mensualmente el gasto en mensualidad para colegio era de $54.16. El padre A contribuye con 58.8% y el Padre B con 41.2%. Esto es, al Padre A le corresponde contribuir $54.16 x .588 = $31.85. Al Padre B le corresponde contribuir $54.16 x.412 = $22.31.

Se anotan los resultados en las columnas correspondientes a la Sección 11.

SECCION 12. Gastos de matrícula de los niños alimentistas

El gasto de matrícula se divide entre 12 y se anota en el encasillado correspondiente a la Sección 12.

SECCION 13. Contribución de cada padre a los gastos de matrícula de los niños alimentistas.

El gasto mensual en matrícula de la Sección 12 se multiplica por la participación proporcional de cada padre y eso representa la obligación de cada uno en ese renglón.

Ejemplo: En el ejemplo anterior el gasto en matrícula era de $100. Ese gasto se divide entre 12 meses y nos da $8.33. El gasto de $8.33 se multiplica por 58.8% y nos da $4.90 para el Padre A. Se multiplica por 41.2% y nos da $3.43 para el Padre B. Esos resultados se anotan en la columna correspondiente a la Sección 13.

SECCION 14. Renta mensual o renta mensual imputada

En los casos en que el padre custodio con quien residirán los niños alimentistas no haya contraído nuevo matrimonio o no haya constituido un nuevo hogar compartiéndolo con un compañero(a) aún sin haber contraído matrimonio, el gasto de la renta mensual o del pago mensual de hipoteca será dividido entre el número de personas que comparten la vivienda en donde residirán los niños alimentistas, obteniéndose una cantidad mensual per cápita. La cantidad que estará sujeta al prorrateo entre los padres será equivalente al per cápita multiplicado por el número de hijos alimentistas solicitando pensión alimenticia.

Esa cantidad se anotará en el espacio correspondiente en la Sección 14.

En los casos en que la vivienda perteneciera a una nueva sociedad de gananciales o el cónyuge custodio tenga un nuevo cónyuge, el tribunal discrecionalmente establecerá una cantidad razonable por concepto de gastos de vivienda del niño o niños alimentistas.

SECCION 15. Contribución de cada padre a los gastos de renta o mensualidades de hipoteca

La obligación de cada padre con relación al gasto mensual de vivienda (no se incluye mantenimiento ni utilidades porque están considerados en la pensión básica) se determina en porporción a su ingreso.

Ejemplo: En el ejemplo anterior, el pago de renta ascendía a $175 mensuales. Los 3 niños vivían con su madre y ella no había contraido nuevo matrimonio. Sin embargo, la madre de ella vivía con ellos. En la vivienda residían 5 personas. Se divide $175 ÷ 5 = $35. Se multiplica $35 x 3 niños alimentistas = $ 105. Ese es el gasto que se comparte entre ambos padres.

$105 x 58.8% = $61.74 para el Padre A

$105 x 41.2% = $43.26 para el Padre B

Las cantidades se anotan en las columnas correspondientes a la Sección 15.

SECCION 16. Contribución de cada padre al sostenimiento de los niños

La contribución u obligación de cada padre al sostenimiento de los niños se obtiene sumando los resultados de las Secciones 7, 9, 11, 13 y 15.

El resultado se anotará para cada padre en la columna correspondiente a la Sección 16. El padre alimentante no custodio vendrá obligado a contribuir con la cantidad así determinada al padre alimentante custodio para el mantenimiento de los menores alimentistas.

SECCION 17. **Cálculos para los casos de custodia dividida**

Si la custodia del alimentista se divide por partes iguales entre ambos padres, o si hay custodia compartida en donde el alimentista pasa 3 meses o más con uno de los padres, el cómputo de la pensión se hace de la siguiente manera.

Se trabaja el formulario #1 en todas sus partes. Es necesario que se hagan todos los cómputos para cada uno de los padres. La cantidad que le corresponda a cada padre se multiplica por el número de meses en que el niño permanecerá con cada uno de ellos.

Ese total se prorratea en base anual, dividiendo entre 12 meses. El cálculo se hace separadamente para cada padre. Ambas cantidades se comparan y el resultado de la resta entre ambas será el monto de la obligación que el padre que tenga la mayor responsabilidad pagaría al padre durante el año.

Ejemplo: Al cálcular la responsabilidad de cada padre en la manutención del niño que se obtiene del Formulario #1, se encuentra que el Padre deberá contribuir con $450 mensuales y la madre con $325 mensuales. El arreglo de custodia compartida es de 4 meses con el padre y 6 meses con la madre. Se multiplica $450 x 6 = $2700. Se multiplica $325 x 6 = $1950.

Ambas cantidades se divide entre 12 meses.

$2700 ÷ 12 = $225.00 Contribución mensual del padre

$1950 ÷ 12 = $162.50 Contribución mensual de la madre

Se restan ambas cantidades $225.00
- 162.50
$ 62.50 mensuales que el padre debe entregar a la madre mensualmente durante todo el año para la manutención del niño, salvo estipulación de partes si se llegan a otros arreglos.

ARTICULO VI. **VIGENCIA**

Este reglamento comenzará a regir inmendiatamente a partir de su radicación en el Departamento de Estado.

APROBADO HOY DIA 4 DE DICIEMBRE DE 1989.

Apéndice 2 Formulario I-A

Cálculo para el ingreso neto disponible del padre alimentante cuando existe una nueva Sociedad de Gananciales

		Padre Alimentante	Cónyuge Actual
1.	Ingreso Bruto Mensual. (Anote para el padre alimentante la Sección 1 del Formulario #1) (Para el cónyuge actual, calcule el ingreso bruto según instrucciones de la Sección 1 del Formulario 1.)	_____	_____
2.	Total deducciones mandatorias. (Para el padre alimentnate anote la Sección 2 del Formulario #1.)(Para el cónyuge actual utilice el procedimiento explicado en el Formulario #1.)		
	a. Seguro Social	_____	_____
	b. Contribución sobre ingreso	_____	_____
	c. Seguro por desempleo	_____	_____
	d. Retiro para empleados gubernamentales	_____	_____
	e. Ahorro para empleados gubernamentales	_____	_____
	f. Cuotas de: Asociaciones	_____	_____
	Uniones	_____	_____
	Federaciones	_____	_____
	(Si mandatorias)		
	g. Pagos por concepto de Seguro de vida o de accidentes si el (la) alimentista (s) son beneficiarios.	_____	_____
	Total deducciones mandatorias	_____	_____
3.	Seguro médico para hijos alimentistas (Anote aquí la Sección 4 del Formulario #1 para el padre alimentante	_____	
4.	Ingreso neto disponible (Para el padre alimentante anote el resultado de la Sección 5 del Formulario #1.) (Para el cónyuge actual reste a la Sección 1 de este Formulario la Sección 2 y la Sección 3 y anote el el resultado en esta Sección.)	_____	_____
5.	Ingreso neto mensual disponible de la nueva sociedad de gananciales (Sume la Sección 5 del padre alimentante y el del cónyuge actual.) Traslade esta cifra a la Sección 5 del Formulario #1.	_____ +	_____ = _____

Apéndice 3 Formulario I-B

Cálculo de la Obligación Alimenticia Básica de Cada Padre

		Padre No Custodio	Padre Custodio
1.	Ingreso neto mensual disponible (Línea 5 del Formulario I)	_____	_____

2. Obligación de cada padre al mantenimiento de los menores alimentistas.

a. Identifique el número de los menores alimentistas y las edades de éstos.

Nota: Tome en consideración todos los menores alimentistas a los que el padre debe proveer alimentos aunque éstos tengan ya una pensión previa fijada y/o convivan con él actualmente.

	Padre No. Custodio			Padre Custodio		
	1 # de Niños	2 Cantidad	3 Total	1 # de Niños	2 Cantidad	3 Total
Menores de 3 años						
3 - 5	____	x ____	= ____	____	x ____	= ____
6 - 10	____	x ____	= ____	____	x ____	= ____
11 - 14	____	x ____	= ____	____	x ____	= ____
15 +	____	x ____	= ____	____	x ____	= ____
Total de cada padre (Sume las cantidades que aparecen en la columna 3.)			____			____

b. Localice en las Tablas que se incluyen la tabla correspondiente al # de niños para los que se computa la pensión de acuerdo con el ingreso neto disponible de cada padre. (Un niño, 2 niños, 3 niños, 4 niños, 5 niños o' más)

c. Localice en la columna de la extrema izquierda el ingreso neto mensual disponible de cada padre por separado.

d. Localice la columna apropiada para la edad de cada niño, busque la cantidad que le corresponde según su edad. La edad a tomarse es aquella más cercana a la fecha de su cumpleaños. Ej. 3 años 10 meses = se entenderá 4 años. 3 años 1 mes = se entenderá 3 años.

e. Anote la cantidad en la columna correspondiente a la edad del niño en el Inciso (a) a la Sección 2a y multiplique por el # de niños en esa edad.

f. Sume todas las cantidades correspondientes a cada niño y esa será la obligación alimenticia básica de cada padre. (Anote en la columna de totales de la Sección 2 inciso (a) de este formulario.) Transfiera esta cantidad a la Sección 7 del Formulario I.
